1. Edit Vector Data Source

Edit an existing vector data source

- PostGIS
  PostGIS Database
- Basic Store Info
  Workspace *

  | osm_finland | ▼ |

  Data Source Name *

  | osm_finland |

  Description

  | Postgis osm_finla |

  ☑ Enabled
- Connection Parameters
o dbtype *

  | postgis |

o host *

  | |

o port *

  | |

o database

  | osm_finland |

o schema

  | osm |

o user *

  | |

o passwd

  | ********** |

o Namespace *http://avaa.tdata.fi/geoserver/

o ☐ Expose primary keys

o max connections

  | 30 |

o min connections

  | 5 |

o fetch size

  | 10000 |

o Batch insert size

[_____]

o Connection timeout

[5]

o ☑ validate connections

o ☑ Test while idle

o Evictor run periodicity

[_____]

o Max connection idle time

[_____]

o Evictor tests per run

[_____]

o Primary key metadata table

[_____]

o Session startup SQL

[_____]

o Session close-up SQL

[_____]

o Callback factory

[_____]

o ☑ Loose bbox

o ☑ Estimated extends

o ☐ preparedStatements

o Max open prepared statements

[30]

o ☐ encode functions

o ☐ Support on the fly geometry simplification

o ☐ create database
